

Sagnik Sarkar

Enterprise B2B Sales & Business Development Manager

Kolkata, India | +91-8017308577 | ssagnik1997@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Results-driven Mechanical Engineer turned Enterprise Sales Leader with ~5 years of B2B technical sales experience across industrial technology, CAE/simulation software, and SaaS markets. Expert in **MEDDIC and SPIN selling**, C-suite stakeholder engagement, CRM pipeline management (Salesforce / HubSpot), value-based selling, ARR/MRR growth, channel partner management, demand generation, and pipeline forecasting (>85% QoQ). Consistent **110%+ quota attainment** across every role. **Immediate joiner. Open to relocation.**

WHY I'LL BE A PERFECT FIT

Target Role: Sales Engineer / Account Manager / Business Development Manager — Industrial Technology, CAD/CAM, CAE, or Engineering SaaS

- › **Engineering + Sales Hybrid (Rare):** B.Tech Mechanical Engineering + 5 years enterprise B2B technical sales. Earns technical credibility with engineers in the first 10 minutes and closes at C-suite level — most sales hires can do one or the other, not both.
- › **MEDDIC Practitioner | Territory Builder | Consistent Overperformer:** Implemented MEDDIC across a regional team — reduced sales cycles by ~20%, forecast accuracy >85% QoQ. Built three cold territories from zero across East India, NE India, and Bangladesh. 110%+ quota attainment every single quarter across every role held.
- › **CAE / Engineering Software Sales Background:** Sold ANSYS simulation software to manufacturing, automotive, and R&D; teams — identical buyer profile to CAD/CAM, PLM, and precision engineering software. 55% demo-to-PO conversion vs ~30% industry average. The track record is verifiable.

PROFESSIONAL EXPERIENCE

Account Manager — Enterprise & Institutional Sales

Mar 2024 – Oct 2025

CADFE India (ANSYS Elite Channel Partner) | Kolkata, West Bengal

- › Built East India + NE India + Bangladesh territory from near-zero — achieved **110%+ quarterly quota** through CRM-driven pipeline management, demand generation, and structured account planning.
- › Closed CAE/simulation software deals averaging **Rs. 25–40 Lakhs per engagement** via ROI-focused, value-based presentations to CTOs, Engineering Heads, and Procurement Directors at 30+ enterprise accounts.
- › Implemented **MEDDIC methodology** across the regional team — reduced sales cycle by ~20%, improved forecast accuracy to **>85% QoQ**; coached 2 junior reps to **110%+ quota** through structured deal reviews and stakeholder mapping playbooks.

Application Engineer — Sales

Jan 2023 – Feb 2024

Kruger Ventilation Industries (India) Pvt. Ltd. | Kolkata, West Bengal

- › Generated and closed **Rs. 1.2 Crore+** in industrial HVAC/ventilation solutions within 14 months; built a **50+ account pipeline** across manufacturing and infrastructure sectors.
- › Conducted 25+ technical site assessments — designed bespoke ventilation systems reducing client energy overhead by **15–25%**; delivered **92% on-time fulfilment rate** managing full end-to-end sales cycle.
- › Retained **100% of key accounts** through proactive post-sales engagement — generated 3 repeat orders and 2 referral-led new client wins in the same fiscal year.

Technical Service & Sales Engineer

Oct 2021 – Dec 2022

SAPS Power Equipments Private Limited | Kolkata, West Bengal

- › Launched new BD vertical for industrial valves, pumps and filtration — generated **Rs. 60 Lakhs+ first-year revenue** from a cold territory; executed audits at **15+ power plants** and built a **40-account network** across East India's power sector.
- › Converted **55% of product demos into purchase orders** within 60-day average window — nearly double the ~30% industry benchmark through value-based selling and technical credibility.
